

mimiX biotherapeutics

Speaker Profile - Marc Thurner

Chief Executive Officer - mimiX biotherapeutics Ltd

Marc Thurner is a visionary, entrepreneur and pioneer in 3D bioprinting & biofabrication technologies. His company mimiX biotherapeutics Ltd, is recognized as an industry leader in the development of innovative biomedical solutions.

A micro technology engineer Graduate, Marc started his professional career as an R&D engineer, managing international projects for the high precision automation industry.

His avant-gardiste view that the future of regenerative medicine lay in converging engineering and biomedical science, brought him to found regenHU Ltd in 2007 and mimiX biotherapeutics Ltd in 2019.

In 2012 he created the regenHU spin-off Vivos Dental Ltd, specialized in innovative 3D-printed bone grafting solutions for oral bone augmentation.

Marc Thurner and the mimiX biotherapeutics team are passionate about addressing the current and next generation biomedical challenges to help the progress of Life Sciences.
